

Blackhawk Hydraulic Oil Power Jacks

**The All Car
Model J10**

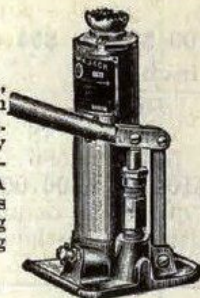

Exceptional lifting range (3½ in. low to 16 in. high) makes this Jack adaptable to any passenger car, balloon tired, or otherwise.

1½ ton on head, ¾ ton on toe. Toe adjustable from 3¼ to 9 in. when Jack is collapsed head is 10 in. low.

Total height, in.....	19
Weight packed, lbs.....	18½
Price.....	\$20.00

*This model does not have hand adjustable extension.

**The Scout
Model L7**

It lifts the heaviest pleasure car with ease. It has the lowest head of any hydraulic jack made 7" at low point. It is safe because it cannot lower accidentally. It is the lightest jack, weighing only 8½ lbs. packed for shipment. It is the simplest having only 2 positive bale checks to protect from dirt and has no flimsy or delicate mechanism. The hand adjustable plugger allows operator to run jack up 2" to meet axle. Then a 4½" in lift will raise car high enough to inflate a 6" balloon tire.

Price, each \$7.50

The Motor Coach

For easy operation under heavy motor coaches, busses and trucks without disturbing passengers or load. Motorcoach Models A8.5 and C8.5 equipped with hand adjustable screw extension.
